State Operations Center	Inland Region EOC	Coastal Region EOC	Southern Region EOC
Level 1	Normal Operations	Normal Operations	Normal Operations

Coronavirus Disease 2019 (COVID-19)

The Cal OES State Operations Center (SOC) activated 03/02/20 at 0700 hours in support of the California Department of Public Health (CDPH) Medical Health Coordination Center's (MHCC) statewide response to COVID-19. Cal OES will continue to provide resource coordination for the COVID-19 event, as well as situation status reporting and advance planning across multiple areas.

Situation Overview

- **California State of Emergency Proclamation**

On 03/04/20, Governor Gavin Newsom declared a State of Emergency for California, as a result of the global COVID-19 outbreak that began in December 2019, to make additional resources available, formalize emergency actions already underway across multiple state agencies and departments, and help the state prepare for broader spread of COVID-19.

- **Global Health Advisory**

On 08/06/20, in close coordination with the U.S. Centers for Disease Control and Prevention (CDC), the Department of State lifted the Global Level 4 Health Advisory. The Global Advisory, initially put in place on 03/19/20, advised U.S. citizens to avoid all international travel due to the global impact of COVID-19. For more information visit: <https://www.state.gov/>.

- **State Executive Order N-33-20**

On 08/28/20, California introduced a blueprint for reducing COVID-19 in the state with revised criteria for loosening and tightening restrictions on activities by counties. Visit [Blueprint for a Safer Economy](#) for more information and to check the status of a county. This blueprint included a health equity metric to be used along with other metrics to determine a county's tier. The purpose of [Equity Metric](#) is to ensure California reopens its economy safely by reducing disease transmission in all communities.

- **CDPH Statewide Travel Advisory**

The California Department of Public Health (CDPH) has issued a new Travel Advisory superseding the 11/13/20 guidance. Californians should avoid non-essential travel to any part of California more than 120 miles from one's place of residence, or to other states or countries. Non-essential travelers from other states or countries are strongly discouraged from entering California, and if they do, should adhere to quarantine procedures. All persons arriving in or returning to California from other states or countries should self-quarantine for 10 days after arrival, except as necessary to meet urgent critical healthcare staffing needs or engage in emergency response.

WEATHER KEY POINTS

03/28/21 - 04/03/21

Sunday

- Winds will increase significantly across northeastern California Sunday afternoon and evening with an approaching cold front from the west with the strongest winds across Modoc County
 - Gusty winds could blow around unsecured objects, and could make driving difficult, especially for high profile vehicles
 - Tree limbs could be blown down and power outages are possible
- A few light showers could develop across far northwest California Sunday evening

Monday-Thursday

- Notably cooler temperatures Monday statewide before temperatures rebound by midweek
- The Sacramento Valley will likely see wind gusts in the 40-45 mph range
 - Strongest winds will be Monday night and Tuesday morning when gusts of 50 mph are likely above 2500 feet in the Bay Area and also for the Sierra mountains and foothills of northern California. Up to 60 mph gusts are possible across the North Bay.
- Periods of gusty winds will spread into southern California Monday through Wednesday
 - A moderate Santa Ana looks to develop Tuesday and continue into early Thursday with gusts of 35 to 50 mph expected, potentially causing elevated fire weather conditions to develop across southern California into mid week. Peak winds are expected Tuesday night into Wednesday.

Friday-Saturday

- No significant impacts expected at this time

CALIFORNIA WEATHER IMPACTS
